

## TEETH WHITENING PROCEDURE

At our **Smile Care Dental Clinic** we believe that dental examination is necessary to help determine

If the patient

is a good candidate for bleaching and what treatments are best!

Teeth Whitening methods used will vary in

***effectiveness, cost, and durability.***

*The treatment is done with the help of latest laser technique for whitening of teeth.*

**Stained Teeth** is a very common dental problem that

we come across in our clinic which makes

a lot of people to feel uncomfortable when they have to

Talk or smile, due to the colour of their teeth.

***Discoloured teeth require teeth whitening treatment.***

**Tooth Whitening** is the most popular cosmetic dentistry procedure

Because it can significantly improve the appearance of teeth

at much less cost than other techniques

such as porcelain veneers or tooth bonding.
